Experience:

Ken joined Equal Assurance in early 2008 to provide a range of audit services to clients. Key focus areas include assurance and independent external audits in areas such as quality, OH&S and environmental management systems, along with similar services to the Civil Contractors Federation's Civil Construction Management Code.

Ken maintains close to 30 years of experience in the civil engineering industry, his earlier period spent in the public sector in several divisions of VicRoads, thence to the private sector civil construction, commencing his developed career as a Quality Assurance Manager in 1992. In 1998 Ken commenced operating as an Engineering Consultant and was engaged by various construction companies and organisations in various roles as ranging from Quality Manager, Safety Manager to Project and Planning Engineer.

His main expertise and occupation is in the development and auditing of management systems for a variety of companies that comply with the relevant International and Australian standards with the emphasis for gaining third party certification of these systems. This experience also includes development and auditing of management systems compliant with the Civil Contractors Federation's Civil Construction Management Code.

Ken retains his interest in civil construction by providing auditing, estimating, tendering, and project planning services. He provides training to staff and conducts regular audits on organisations' management systems and manages annual internal audits to maintain and improve the organisations' level of certification at the forefront of industry standards.
